WICHITA MARKETS.

Receipts of live stock at the Union Stock yards f. : 24 hours, 1113 hogs; 98 sheep, and for the week just closed 1380 cattle, 7929 hogs, 295 sheep. A decrease in cattle receipts on account of the heavy break in prices during the early part of the week. Hog receipts show quite an increase over last week. Receipts of sheep also show a nice increase. The cattle receipts were very light, not being enough to cause any aceleity on the market or to test its strength. Hog receipts good for Saturday. The market was strong at yesterday's figures and if present indications hold good hogs will sell some higher Monday. Quite a trade in sheep and market steady.

Ago it lost the navance and final quota-tions were a shade better than yesterday. Outs were less active but a fair business transacted and a steady feeling developed. Nothing of consequence was done in pork. The feeling was easy with prices nominally 50 0c lower.

A quiet and easy feeling prevailed and prices ruled 25 05c lower on land.

Only a moderate trade was reported in short ribs, the feeling was rather weak and

price declined 2% of closing steady at the reduction.

Directions for Waist Exercise Take arterial position with feet at an angle of 45 degs.; knees straight. Place the palms of the hands upon the hips, thumbs forward, fingers down. Bend the body at a point as near the lower end of the ensiform cartilage as possible, gripping the stomach as in a rise. Press the body down upon the stomach until cuite painful. Do not bend the hips. Now turn the torso around upon this pivot formed near the pit of the stomach, describing as large a circle as possible with the shoulders. Keep the entire circle regular, a difficulty which will be especially feit when passing

In the vicinity of the waist there are two natural joints one at the hips and the other above. The hip joint must not be used in this exercise. It is that great, uni versal joint at the very belt of life, general ly ignored, and with most serious results,

strengthen and develop. No "lady of fashion" ever uses this joint; for, from early womanhood, she has taken the utmost precaution to make this great pivot of life as inflexible as the steel which "supports" it; and yet she will complain of dyspepsia—the very disease she has been at such pains to induce. Journal of

"It's a Girl."

A correspondent of The Boston Transcript tells of a man who was a guest at an annual dinner of a woman's club, to which men were invited. He said he sat dumb before the tide of elequence about women and longed to make a speech himself. It was a woman's programme, however, and the men, the guests, had not been asked to

contribute to the feast of reason. "I thought, as I sat and listened to the women praising all that woman is doing nowadays, of a little some at my daughter's home yesterday," said this man, "My son-in-law came for me, and we went over o see my grandchild. I found my wife and my daughter in tears. 'Why, what's the matter! I asked, and they answeredthose women's club women-they answered, sobbing: "It's a girl!"

Got His Eyes Open. "What ails you?" asked a petrolman of a man who halted him on Gratiot avenue yesterday.

"Look at my eye "I should say! Who hit you?"

"I will tell you. I went into a place up here to light my pipe. There was a man in there who said he put up awnings. I seled him how much be would charge to put up an awning for me. He said he'd do it for a cent. It seemed awful cheap to me, but I supposed awnings had dropped, and so I told him to

go ahead." "And he hit you in the eye?"
"Yes, sir. He said that was the kind of awnings he put up for a cent.

'And what did you do?" "Nothing. I was partly to blame, you see. I ought to have asked him whether it was an awning for my eye or my shop window. Quite a difference, you know. I'm on to the trick now, however, and they don't catch me again."-Detroit Buined by Teo Quick Cooking.

Too much haste is the cause of much bad rooking, according to a commentator on modern cookery. The majority of rooks bake brown bread and baked beans, for in-stance, in from one to two hours under a hot fire. The Boston cooks give from ten to twelve hours of baking to their beans and brown bread, and have the satisfaction of hearing that in no other city or country can such "delicious beams" and "lovely bread" be found.

Furniture Reviver.

One of the simplest preparations for restoring dull and scratched formiture is a mixture of three parts linesed oil and one part turpentane. It revives the color of the wood, gives a nice gloss and probably covers scratches as well as anything ex-cept a thorough scraping and rednishing will do. It is also very easy to use, being rubbed on with a cloth.
